MEMORANDUM FOR THE RECORD

SUBJECT: Meeting re: SEO National Security Directive

1. On 12 April 1989, I met with [ ] of the Security Evaluation Office (SEO) to discuss the possibility of drafting a National Security Directive addressing the duties of the SEO. I told her that I thought it was not the best idea to draft this item, given the current state of relations with the State Department and the possibility that such a document could be misinterpreted in the future. That said, I told her that if it were her decision to continue with the creation of a draft, which apparently would be closely held and used only if necessary, I would work with her to ensure that the resulting product met the Agency's needs.

STAT

2. [ ] understood my concerns. I told her to feel free to contact me upon her completion of a first draft.
